

SVD Misión-Mozambique
Communication

Triennial Report

The area of Communication in SVD Mozambique Mission was re-initiated in 2008 through the invitation/encouragement from the Mission Superior, Fr. Conrad Klich, SVD.

The present Coordinator has no enough knowledge yet about the vast work on Communication. However, knowing the need in our mission, he accepted such responsibility despite the fact the he had little experiences in University Journalism during college studies and also some units in Social Communication during Theological studies. Having such personal limitation, personal adjustments were also made and so the Mozambique Mission's communication work is running smoothly.

Since the present Coordinator took responsibility after the SVD-Mozambique Assembly in November 2008, the following were accomplished:

- The Communications Coordinator-Mozambique stayed in contact with the Zonal Coordinator and so we are now included in the Zone's Social Communications' website.
- The Coordinator started and is continuing with the SVD Mozambique's Internal Bulletin with the assistance-contributions from our confreres especially the Mission Superior. This is mainly to facilitate sharing of information and news among confreres in our different communities in the Northern and Southern parts of Mozambique.
- Tridu'um and Eucharistic Celebration on Social Communications Day in Santo António da Malhangalene Parish, Maputo City.

With these accomplished Activities, the Coordinator will still find some more means of communications like maximization of modern technology such as the Internet, to bring Mission Information outside Mozambique, especially to our benefactors and mission friends for them to know also our situation.

The present Coordinator suggests, then, as it is necessary, that Communications Coordinators to have meetings and formations in the Area and AFRAM levels for the improvement of our work.

Prepared by:

Fr. Juan C. Libangan Jr., SVD
Coordinator
